PROFESSIONAL SUMMARY

Computer Science undergraduate (CGPA: 8.25) with hands-on experience building full-stack web applications using React.js, Node.js, and RESTful APIs. Proficient in C, Python, Java, and JavaScript with a solid foundation in SQL databases. Contributed to open-source frontend projects and actively builds real-world applications to develop scalable, efficient software solutions.

TECHNICAL SKILLS

Languages: C, Python, Java, JavaScript
Web Technologies: HTML, CSS, React.js, Node.js, Bootstrap
Databases: SQL, PostgreSQL, pgAdmin
Tools: Git, GitHub, PyCharm, Chrome DevTools, MS Office

PROJECTS

Weather Prediction System

Dec 2025

React.js, Node.js, External Weather API

- Developed a full-stack weather web application delivering real-time forecasts for 10+ locations by integrating a third-party weather API to fetch temperature, humidity, and wind speed data.
- Built 4+ core modules including location search, real-time data display, multi-day forecast view, and a user dashboard with dynamic charts.
- Optimized API call efficiency by implementing caching logic, reducing redundant requests by approximately 40%.

To-Do List Manager

Jan 2026

React.js, Node.js, RESTful APIs

- Built a full-stack task management application enabling users to create, update, organize, and delete daily tasks through a clean, responsive UI.
- Implemented complete CRUD operations via RESTful APIs with task filtering, status tracking, and a productivity dashboard as core modules.
- Designed a persistent backend with Node.js to maintain task state across sessions, improving data reliability and user experience.

GymXpert – Online Fitness Training Platform

Dec 2025

HTML, CSS, JavaScript (Frontend)

- Developed a responsive fitness platform enabling users to browse and enroll in personal online training programs across multiple membership tiers.
- Designed interactive UI components for workout schedules, trainer profiles, and membership selection; built 4+ structured pages including Home, Programs, Plans, and Contact.
- Applied responsive design principles ensuring consistent cross-device layout across desktop and mobile browsers.

EDUCATION

Sreenidhi Institute of Science and Technology

2024 – 2028

B.Tech in Computer Science and Engineering | CGPA: 8.25

Hyderabad, Telangana

EXPERIENCE & RESPONSIBILITIES

Publicity Team Member – Emerging Computers Arena Club (ECA), SNIST

2026 – Present

- Promote club initiatives, technical events, and hackathons through digital and campus communications to drive student participation.
- Design event posters, social media announcements, and newsletters coordinating with the core team for maximum visibility.

Open Source Contributor – Frontend Projects (GitHub)

2025 – Present

- Contributed UI improvements and bug fixes to open-source React.js projects, enhancing responsiveness and usability.
- Implemented responsive design updates and minor feature additions reviewed and merged by project maintainers.

CERTIFICATIONS & WORKSHOPS

- Frontend Developer Certificate – Udemy
- Technology Simulation Program – Deloitte
- Introduction to Prompt Engineering – Microsoft
- GenAI Hackathon Participation – Geetanjali College of Engineering and Technology
- Workshops: Quantum Computing (ECA), Node.js (Unstop), GitHub Copilot (SimpliLearn)
